1.2. [Repeat duplication process with the same configuration settings for all subcategories of target category](#)

2. [Duplicate Category](#)

3. [Example of Category Duplication](#)

Key Features

Copy all relations with products and have the same list of products already assigned to newly duplicated category

Sometimes you may need to copy all product's relations and the list of products to the newly duplicated category. The Duplicate Category extension can do such huge work just in a few seconds. Now you don't need anymore to spend hours of your time to duplicate all such thing manually.

Repeat duplication process with the same configuration settings for all subcategories of target category

Now with the Duplicate Category module, it is very convenient for you to duplicate the categories with the same configuration settings for all subcategories.

Duplicate Category

Run to "Categories" > select necessary category > click "Duplicate Category"

Gear

  demo_duplicate_...

Store View: All Store Views  Delete Duplicate Category Save

Add Root Category
Add Subcategory

[Collapse All](#) | [Expand All](#)

- Default Category (1181)
- What's New (0)
- Women (0)
- Men (0)
- Gear (48)**
 - Bags (16)
 - Fitness Equipment (23)
 - Watches (9)

Enable Category Yes
[store view]

Include in Menu Yes

Example of Category Duplication

Step 1: select a category you want to duplicate > click "**Duplicate Category**"

The screenshot shows the 'Gear' category edit page. At the top, there's a 'Store View' dropdown set to 'All Store Views'. To the right are 'Delete', 'Duplicate Category' (highlighted with a red box), and 'Save' buttons. Below this are 'Add Root Category' and 'Add Subcategory' buttons. A tree view on the left shows the category hierarchy: 'Default Category (1181)' with sub-items 'What's New (0)', 'Women (0)', 'Men (0)', 'Gear (48)', 'Bags (16)', 'Fitness Equipment (23)', and 'Watches (9)'. The 'Gear' category is selected. On the right, there are toggle switches for 'Enable Category [store view]' and 'Include in Menu [store view]', both set to 'Yes'. A 'Category Name' field contains 'Gear'. A 'Content' section is visible at the bottom.

Step 2: fill up all necessary fields > click "**Save**"

The screenshot shows the 'Duplicate Category' dialog box. It has a title bar 'Duplicate Category'. Below the title bar are three sections:

- Assign Products**: A toggle switch is turned on (Yes). Below it, the text reads: 'Assign same products and their category positions as origin category.'
- Duplicate Children**: A toggle switch is turned on (Yes). Below it, the text reads: 'Create duplications of all children with same hierarchy.'
- Parent Category**: A dropdown menu is set to 'Gear'. Below it, the text reads: 'If there are no custom parent categories, parent category will be as same as target parent category. You can reassign the category at any time.'

Step 3: The category was duplicated successfully.

The screenshot displays a category management interface. At the top, there are two buttons: "Add Root Category" and "Add Subcategory". Below these are links for "Collapse All" and "Expand All". The main list of categories is as follows:

- Default Category (1181)
 - What's New (0)
 - Women (0)
 - Men (0)
 - Gear (48)** (highlighted with a red box)
 - Bags (16)
 - Fitness Equipment (23)
 - Watches (9)
 - Gear (48)** (highlighted with a red box)
 - Bags (16)
 - Fitness Equipment (23)
 - Watches (9)
 - Collections (13)
 - Training (6)
 - Promotions (0)
 - Sale (0)
 - Test Sale (0)
 - Test Sale Pro (12)

Mageside is a team of developers dedicated to Magento installation, support, extension creation and advanced customization. We are good at doing the heavy lifting, and there is no Magento project that is out of scope on a technical basis.

Mageside does full site conversions, Magento 2 upgrades, advanced extension development, deep systems integration and all the other fun stuff. Our code is incredibly clean, we are on first name basis with several of the core devs, and love every opportunity to create another fine expression of ecommerce. If you need the best, let us work on your next project.
