    1.2. Make your category pages more concise
    1.3. Configure height of category description, and text of associated buttons
2. Configuration
3. Fade Description Settings

Key Features

Easy to manage from admin panel

No special knowledge is required. This extension is very easy to work with. Install and confgure a few settings in the admin panel and the Mageside Fade Descri ption extension will appear on your category pages.

Make your category pages more concise

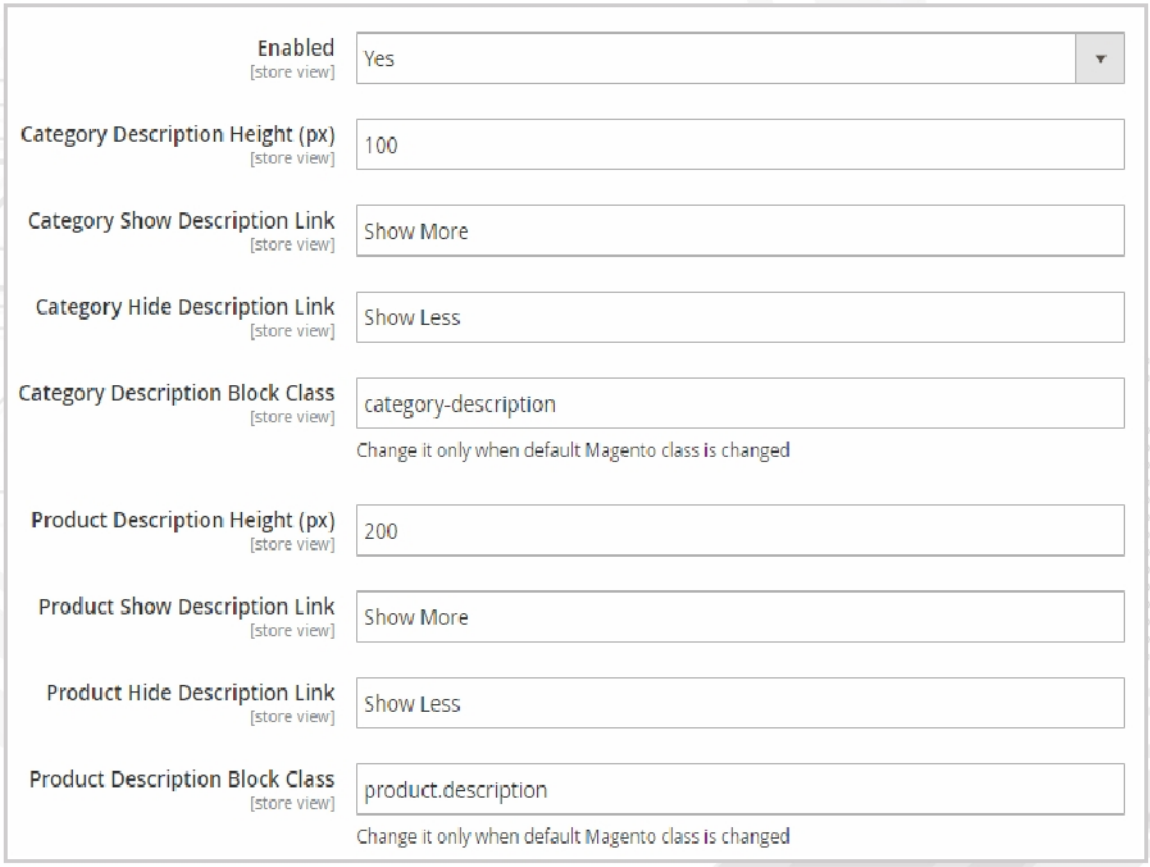
Sometimes a long description is necessary for your category. But not every customer need tostore the entire description.With the Mageside Fade Descri ption module installed, a customer can easily hide all but the teaser!

Configure height of category product description and text of associated buttons

In the confguration panel of the Fade Description module,an admin can set the height of the faded description, and if needed, change the text for the "show" and "hide" buttons. Also an admin can specify the product description height, show "more" or "less" description link.

Configuration

- **Enabled -** To enable the fade description choose "yes"
- **Category Description Height (px) -** Set the height of description in pixels
- **Category Show Description Link -** Here you can write the name of the link that will show the description. For example, "Show more", "Read more", "Read the full description", etc.
- **Category Hide Description Link -** You can write the name of the hide description link. For example, "Show less", "Hide the description", etc.
- **Category Description Block Class -** Specify the category description block class.
- **Product Description Height (px) -** Specify the product description height.
- **Product Show Description Link -** here you can write the name of the link that will show the description. For example, "Show more", "Read more", "Read the full description", etc.
- **Product Hide Description Link -** You can write the name of the hide description link. For example, "Show less", "Hide the description", etc.
- **Product Description Block Class -** Specify the product description block class.



Fade Description Settings

To set up separate settings of the fade description for the category run to **Categories > select Category > Display Settings**

- **Description Height (px) -** set up the height of the description for the category.
- **Show Description Link-** here you can write the name of the link that will show the description. For example, "Show more", "Read more", "Read the full description", etc.
- **Hide Description Link -** you can write the name of the hide description link. For example, "Show less", "Hide the description", etc.

Mageside is a team of developers dedicated to Magento installation, support, extension creation and advanced customization. We are good at doing the heavy lifting, and there is no Magento project that is out of scope on a technical basis.

Mageside does full site conversions, Magento 2 upgrades, advanced extension development, deep systems integration and all the other fun stuff. Our code is incredibly clean, we are on first name basis with several of the core devs, and love every opportunity to create another fine expression of ecommerce. If you need the best, let us work on your next project.
