Key Features

Place checkout steps on one page

No more annoying page crossing to complete the order. With the help of this extension, a customer sees all information concerning his order just on one page. It's possible to edit there a billing and shipping information, select shipping method, add a comment, apply a discount card and much more.

Guest Checkout

It's not necessary for a new customer being logged in to complete the checkout process. The customer just needs to type an email and proceed to checkout.

Checkout Login

A customer has an ability to log in or register right on the checkout page.

Enable Gift Wrap

Your customer wants to send the order beautifully wrapped? Now you can enable this option just in one click, specify the wrap amount and your customers will be happy to use this option.

Gift Message

What can be better than friendly and lovely words saying your friends and beloved people the words of love? With the help of this module, your customers can not only wrap the gift but also leave a lovely message.

Order Comment

Sometimes it may happen that a customer wants to leave some additions and remarks to the order. The option "Order Comment" will definitely help your customers to stay in touch with you, so you could give them a quick response.

Apply Discount

Your customers can apply a discount coupon right on the checkout page. No page reloading while applying the coupon, the discount will be counted automatically and discounted immediately in the order.

Terms and Conditions

Terms and conditions play a critical role in any e-Commerce business. Before placing an order, the customers must read your terms and conditions in a pop-up window. Terms and conditions are assigned for protection your website, company, and customers, so you need to specify your terms and conditions in clear, understandable and simple words. Generate terms and conditions and show it on your checkout page. Also, you can disable the option of showing the terms and conditions on the checkout page.

Newsletter Subscription

Newsletter subscription option allows the customers to subscribe to the newsletter and be notified of all your promotions and sales. From configuration panel, an admin can select what type of newsletter subscription to apply to the checkout page. It can be whether force subscription even for guest customers or checked by default, or another type of subscription.

Leaving a feedback

Leaving a feedback is a real helper for your e-Commerce business. But sometimes a customer can forget to leave a feedback, so to remind the customer about it an admin can configure feedback settings from configuration panel. Once a customer clicked feedback checkout label, some days later he will receive an email with reminding to leave the feedback.

Message Banner

Want to notify a customer about something or just leave thanks message, with the help of this extension you can do it easily and quickly. Just create a unique message and show above checkout page.

Payment Method

The list of payment methods will be available according to your store payment information.

Configuration

General

- **Enabled** - to enable the extension select "yes".
- **Require Authentication before Checkout** - to enable the authentication before checkout select "yes". It gives a customer an additional page before checkout page where a customer has to log in or to provide guest email.
- **Default Shipping Method** - select from the list a default shipping method. The list of shipping method is provided based on all existed shipping methods in your store, including the shipping methods based on other shipping extensions.
- **Default Payment Method** - select a default payment method from provided list.
- **Allow Guest Checkout** - this option allows a customer to go to checkout page without logging in or registering. All a customer needs to do is to type an email and click the button "Proceed to Checkout".

Enabled [store view]	Yes
Require Authentication before Checkout [store view]	Yes Add additional page before checkout page where customer has to log in or provide email.
Default Shipping Method [store view]	Flat Rate - Fixed Set default shipping method in the checkout process.
Default Payment Method [store view]	Check / Money order Set default payment method in the checkout process.
Allow Guest Checkout [store view]	Yes Select Yes to allow checking out as a guest. Guests can create an account in the Checkout Page.

Display Configuration

- **WYSIWYG Editor** - with the help of WYSIWYG Editor you can create a unique message banner that will be displayed on checkout page.
- **Show Discount Code Section** - select "yes" to show a discount code section where a customer can provide discount code and have a discount.
- **Enable Gift Wrap** - to enable the option gift wrap select "yes". This option helps to wrap the order as a gift.
- **Amount** - type an amount of gift wrapping. If no price then leave this field blank.

Select **Yes** to enable Gift Wrap.

Amount
[store view]

10
Enter the amount of gift wrap fee.

- **Enable Gift Message** - to enable gift message select "yes". This option allows a customer to leave a gift message so the gift won't be without a message.
- **Show Order Comment** - select "yes" to allow customers to comment on the order.
- **Comment Content Length** - specify the quantity of character for comment box.
- **Shows Term and Conditions** - select "yes" to display the terms and conditions of your store on checkout page.

Enable Gift Message <small>[store view]</small>	Yes	▼
Show Order Comment <small>[store view]</small>	Yes	▼
Select Yes to allow customers to comment on the order.		
Comment Content Length <small>[store view]</small>	50	
Characters count. Leave blank or '0' to not limited input.		
Show Terms and Conditions <small>[store view]</small>	Yes	▼
Select Yes to display it.		

Subscribe At Checkout

- **Enabled** - select "yes" to enable subscribe at checkout.
- **Subscribe At Checkout** - select the type of subscription: *Checked by default, Not checked by default, Force subscription not showing or Force subscription.*

Subscribe At Checkout		
Enabled <small>[store view]</small>	Yes	▼
Subscribe At Checkout <small>[store view]</small>	Checked by default	
Subscribe Checkout Label <small>[store view]</small>	Subscribe to newsletters	

Feedback At Checkout

- **Enabled** - to enable feedback at checkout select "yes".
- **Feedback At Checkout** - select the type of feedback at checkout: Checked by default, Not checked by default or Force email sending.
- **Feedback Checkout Label** - type a feedback label that will be shown on checkout page.
- **Order Statuses** - select the type of order status for which a feedback will be enabled.
- **Delay before Email Sending** - specify the days in number before email sending.

Enabled <small>[store view]</small>	Yes
Feedback At Checkout <small>[store view]</small>	Checked by default
Feedback Checkout Label <small>[store view]</small>	Remind me to leave a feedback
Order Statuses <small>[store view]</small>	<div style="border: 1px solid #ccc; padding: 5px;"><p>Complete</p><p>Suspected Fraud</p><p>On Hold</p><p>Payment Review</p><p>PayPal Canceled Reversal</p><p>PayPal Reversed</p><p>Pending</p><p>Pending Payment</p><p>Pending PayPal</p><p>Processing</p></div> <p>Orders with selected statuses will be processed.</p>
Delay before Email Sending <small>[store view]</small>	14 In days.

- **Max Emails per Day** - specify the number of emails that will be sent per one day. It's useful not to be considered as a spam sender.
- **Recently Bought Products** - specify number of products that will be shown in one email in the section "Bought recently".
- **Promotion Block** - type a message for promotion block.
- **Email Sender** - select the type of email sender.
- **Email Template** - select an email template for feedback message.
- **Time of Day to Send Emails** - specify the time when the email will be sent.

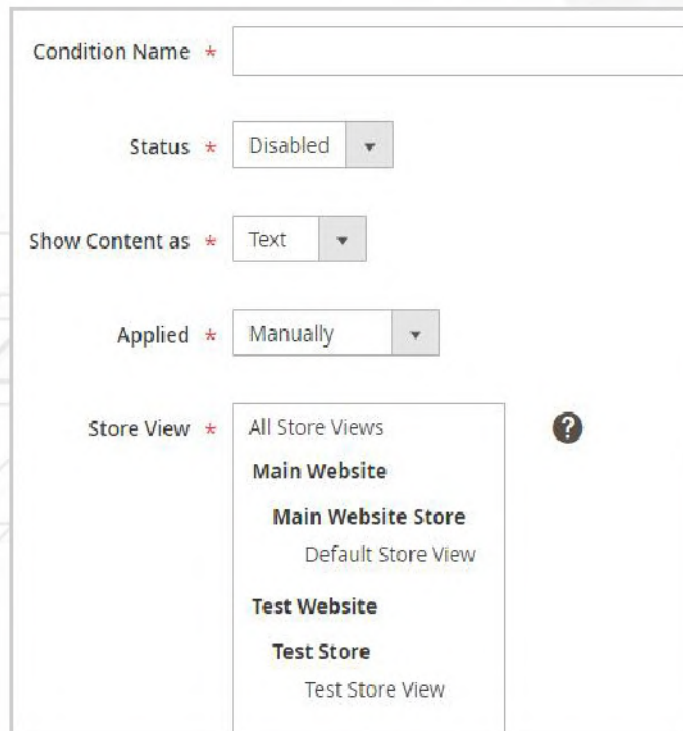

Max Emails per Day <small>[store view]</small>	<input type="text" value="100"/>
	Number of emails which will be sent per day. It can be useful not to be considered as spam sender.

	The maximum of products per one email in the section "Bought recently"
Promotion Block <small>[store view]</small>	<input type="text" value="Review our products and you could be this months, \$25 GIFT CARD WINNER!"/>
Email Sender <small>[store view]</small>	<input type="text" value="General Contact"/> ▼
Email Template <small>[store view]</small>	<input type="text" value="New Order"/> ▼
	Email template chosen based on theme fallback when "Default" option is selected.
Time of Day to Send Emails <small>[store view]</small>	<input type="text" value="10"/> ▼ : <input type="text" value="00"/> ▼ : <input type="text" value="00"/> ▼

Terms and Conditions

Terms and conditions play a critical role in any e-Commerce business. Before placing an order, the customers must read your terms and conditions in a pop-up window. Terms and conditions are assigned for protection your website, company, and customers, so you need to specify your terms and conditions in clear, understandable and simple words. Generate terms and conditions and show it on your checkout page. Also, you can disable the option of showing the terms and conditions on the checkout page.

To add terms and conditions go to **Stores > Terms and Conditions**

- **Condition Name** - type the name of condition.
- **Status** - to enable the condition select "yes".
- **Show Content as** - select the content type: text or HTML.
- **Applied** - select the type of application the terms and conditions: manually, automatically.
- **Store View** - select the store view.

The screenshot shows a configuration form for adding terms and conditions. It includes the following fields:

- Condition Name ***: A text input field.
- Status ***: A dropdown menu currently set to "Disabled".
- Show Content as ***: A dropdown menu currently set to "Text".
- Applied ***: A dropdown menu currently set to "Manually".
- Store View ***: A dropdown menu with a help icon (question mark) to its right. The menu is open, showing the following options:
 - All Store Views
 - Main Website**
 - Main Website Store**
 - Default Store View
 - Test Website**
 - Test Store**
 - Test Store View

- **Checkbox Text** - type a short text that will be shown on checkbox page.
- **Content** - type the content of terms and conditions message.

Checkbox Text *	<input type="text"/>
Content *	<input type="text"/>
Content Height (css)	<input type="text"/>

 Terms and Conditions**The result:**

Our website terms and conditions template has been designed for use on typical websites, including those with with basic interactive features. These terms and conditions include, amongst other things, a licence specifying how the website may be used, a disclaimer of liability, a statutory disclosures section and rules on user-contributed content. This document is an extended version of our website disclaimer document.

Checkout Page

Crossing to Checkout Page

Variant # 1

Once a customer added the products to the shopping cart, the next step is going to the checkout page. There a customer has three variants of crossing to the checkout page: sign in to already existed account, as a guest customer and register for an account. These registration and login fields a customer will see when in configuration panel in the field "**Require Authentication before Checkout**" is selected "**Yes**".

HOW WOULD YOU LIKE TO CHECKOUT

 **REGISTERED CUSTOMERS**

Welcome back. Please enter your info.

Email *

Password *

[Sign In](#) [Forgot it?](#)

 **GUEST**

You'll have a chance to register later.

Email *

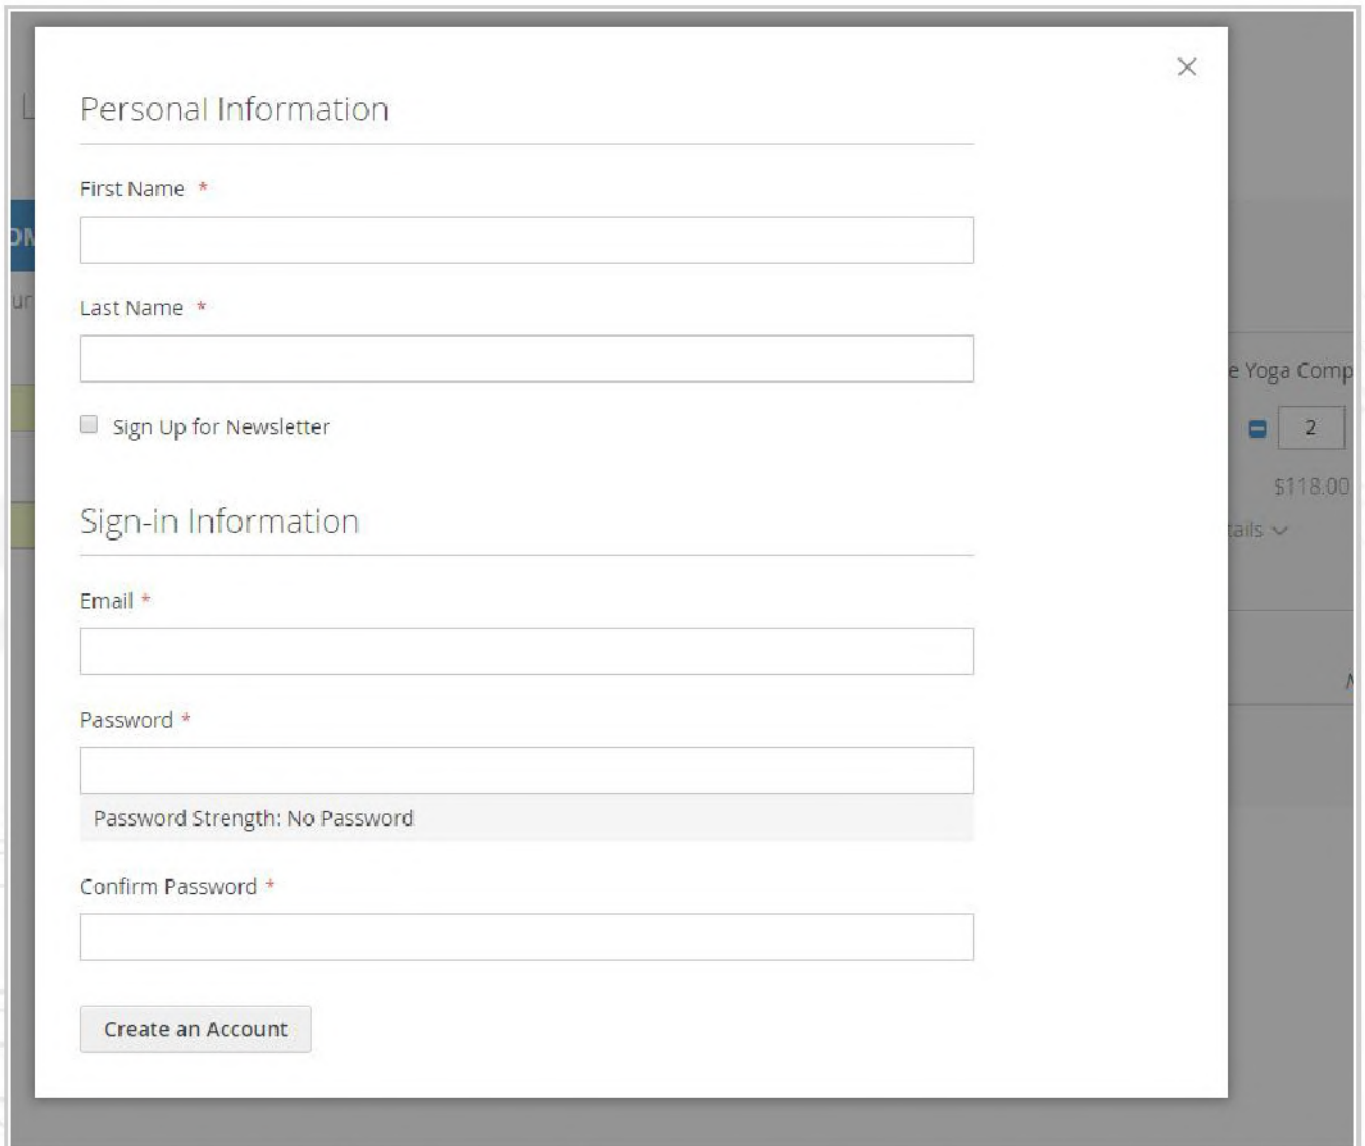

[Checkout as guest](#)

REGISTER FOR AN ACCOUNT

- Proceed through checkout faster
- View past orders
- Manage your address book
- Use "same as last order" function
- Save your shopping cart and checkout later

[Sign In](#)

Once a customer wants to register he must click the button "Sign in" in the section "Register for an account" and a registration page will open.

The screenshot shows a registration form with the following fields and elements:

- Personal Information** (Section Header)
- First Name * (Text input field)
- Last Name * (Text input field)
- Sign Up for Newsletter (Checkbox)
- Sign-in Information** (Section Header)
- Email * (Text input field)
- Password * (Text input field)
- Password Strength: No Password (Feedback message)
- Confirm Password * (Text input field)
- Create an Account (Submit button)

Once a customer logged in or registered he will be crossed to checkout page:

Skype: [pageside](https://www.skype.com/name/mageside)

Facebook: www.facebook.com/mageside

Twitter: <https://twitter.com/mageside>

Mageside is a team of developers dedicated to Magento installation, support, extension creation and advanced customization. We are good at doing the heavy lifting, and there is no Magento project that is out of scope on a technical basis.

Mageside does full site conversions, Magento 2 upgrades, advanced extension development, deep systems integration and all the other fun stuff. Our code is incredibly clean, we are on first name basis with several of the core devs, and love every opportunity to create another fine expression of ecommerce. If you need the best, let us work on your next project.
